GATOR MUTUAL FUNDS COST BASIS ELECTION FORM

Mandatory Cost Basis Reporting Requirement

On October 12, 2010, the Internal Revenue Service (IRS) released the final mandatory cost basis regulations. These regulations were enacted as a result of the Economic Stabilization Act of 2008. As part of the new regulations, brokers and mutual fund companies are now required to provide cost basis reporting to the IRS.

Below is a list of cost basis methods available to you. Please select your preferred reporting method, sign and return with your account application. You may select only **ONE** option. If you do not return this form, the default method of AVERAGE COST will be assigned to your account.

IF YOU WOULD LIKE TO ELECT AVERAGE COST AS YOUR COST BASIS METHOD, THERE IS NO NEED TO RETURN THIS FORM WITH YOUR APPLICATION.

Please see reverse side of this form for cost basis method explanations

COST BASIS METHODS

Average Cost (ACST) – A method for valuing the cost of covered shares in an account by averaging the effect of all covered transactions in the account. The gain/loss is calculated by taking the cumulative dollar cost of the covered shares owned and dividing it by the number of covered shares in the account. Non-covered securities are calculated separately from covered securities and are not reported to the Internal Revenue Service.

First In First Out (FIFO) - A standing order to sell the oldest shares in the account first.

Last In First Out (LIFO) - A standing order to sell the newest shares in an account first.

High Cost First Out (HIFO) - A standing order to sell shares purchased at the highest cost first.

Low Cost First Out (LOFO) - A standing order to sell shares purchased at the lowest cost first.

Loss/Gain Utilization (LGUT) – A method that evaluates losses and gains then strategically selects lots based on that gain/loss in conjunction with a holding period.

Specific Lot Identification (SLID) – The shareholder needs to designate which specific shares to redeem when placing their redemption request. Please note that Average Cost cannot be used as a secondary accounting method. The secondary accounting method will only be activated if the lots chosen are no longer available.
